COMMERCIAL USE LICENSE

EarthLaunch Font License —
Typeface: Turificus Stone & Dingbats
Licensor: EarthLaunch Technologies LLC / Ruffled Pages
Effective Date: Date of Purchase

This is a license to use the font. You do not own the copyright.

1. Who this is for

One purchaser (an individual or a single business entity).
Install on up to 5 devices used by that purchaser / that business.

If more than 5 users need the font, or a second company needs it, buy another license or message us for an extended license.

2. You may

- Use the font in commercial work you create: logos, branding, packaging you produce, websites, social media, ads, books, worksheets, videos, client design work, and physical or print-on-demand products you sell, provided the customer receives a finished design — not the font files.
- Use the font for client projects, as long as the client does not receive the font files.
- Embed the font in a PDF, image, or video that is a finished product (not an editable template meant for resale).

3. You may not

- Resell, share, rent, or redistribute the font files, even to a client.
- Put the font files inside another product for sale: Canva/Cricut templates, editable PSDs, website themes, apps, games, e-learning platforms, server-side tools, or font bundles.
- Offer the font as a freebie, bonus file, or "included font."
- Convert, rename, or modify the font and publish it as a new typeface.
- Use the font as the principal value of a product you sell (example: a listing that is basically "this font, unzipped").
- Use the font in broadcast, film studio titles, nationwide ad campaigns, or software embedding without an extended license. Message us first.

Finished work that uses the letters is fine. Passing on the font itself is not.

4. What “one business” means
One legal entity. A freelancer and their own shop count as one. A second LLC, a separate client company, or a large team over 5 seats needs another license.

5. Delivery
You receive the font files listed on the product page. Files are provided as-is.

6. Refunds
Digital files are delivered immediately. All sales are final except for corrupt or incomplete files, which we will replace.

7. Termination
This license ends if you break it. You must delete the files and stop using the typeface in new work. Existing printed inventory already manufactured may be sold through. We may pursue misuse of the files.

8. Disclaimer
The font is provided without warranty. EarthLaunch is not liable for lost work, failed installs, brand disputes, or indirect damages beyond the amount you paid for this license.

Need an extended, app, web-font, or multi-seat license? Message the shop before you publish.
